

# Brace yourself...

*...Shoring specialist MGF digs the foundations for another 25 years!!*

**This month will see MGF reach the significant milestone of 25 years successful trading but the desire for continued growth is clearly evident.**

- **2005 saw the opening** of a further 2 depots bringing the total across the UK to seven. These impressive new facilities in Yorkshire and Hertfordshire, with an imminent addition due near Gatwick, form part of the strategy to complete true national coverage. From this network of locations MGF is now running it's own transport fleet in excess of 50 commercial vehicles. This £2m investment gives ultimate control on the movement of stock and ensures that MGF meets the deadlines of its customers in a demanding and reactive market.

- **This investment in infrastructure** is matched equally with significant enhancement in human resources across all departments of the business. The core ethics of quality and service can only be achieved with a dedicated, professional and motivated team. The MGF team now exceeds 200 employees and will rise further to meet the demands ahead.

- **The Engineering department** is earning an enviable reputation within the industry. A powerful mix of Structural, Civil and

Mechanical engineers are currently producing over 200 designs per month. A growing proportion of these designs are bespoke solutions. Unique among its competitors, MGF has over 20 years experience manufacturing it's own products and as a result can blend standard product with bespoke requirements and provide solutions for the most complex schemes. This unique capability is served from purpose built manufacturing workshops and is widely acknowledged for producing a product range with the quality and durability required to excel in the UK market.

- **Such an intimate knowledge** of its market and the products required by its customer base fuel the relentless launch of new products. 'Micro' Manhole Boxes, Edge Protection Systems and the MGF 'Super Tank Brace', the strongest modular brace in the industry, being the most recent releases. This passion for innovation should serve the company well and see it prosper at the forefront of its sector for years to come.

- **After 25 years** and having earned stability through hard work and commitment, some companies may choose to take their foot off the pedal. The mood at MGF is clearly different as it gains momentum and pushes relentlessly forward in search of new milestones ahead.

**"MGF are by far the best in the business, it's as simple as that"**

Peter Moran, J Reddington Ltd

**"The service provided by MGF has been of the highest order... a thoroughly professional and proactive package"**

Rod Milne, Volker Stevin

**"MGF provided the most effective, safest solution for the task"**

Phil Rosney, V J Donegan Ltd
